ONE FEATURE YOU CAN SELL

Most people have this turned off.

THE FEATURE

The Prospecting Tool

One search: contact info, website health, social presence, Google reviews.

WHY IT MATTERS

Your first call changes.

You show up knowing their review score and what's broken.

WHERE

Agency side, not sub-account

Settings → Business Services → Prospecting Tool.

THE OFFER

Sell the "what's broken" report

Lead with their problem, not your pitch.
