THE GAP

They post on Facebook manually

BUT

Logging them into AI isn't enough

They stop after a week. They don't know what it can do.

THE REAL EDUCATION

Not how. What it can do.

Anything on a screen, an agent can probably handle.

WHY YOU

Setups won't get one-click

Logins, permissions, security.

THE OFFER

Build it. Teach it. Hand them a chat.

Then duplicate it for the next client in the niche.
