ONE FEATURE YOU CAN SELL

Your 1-page funnel is a store now.

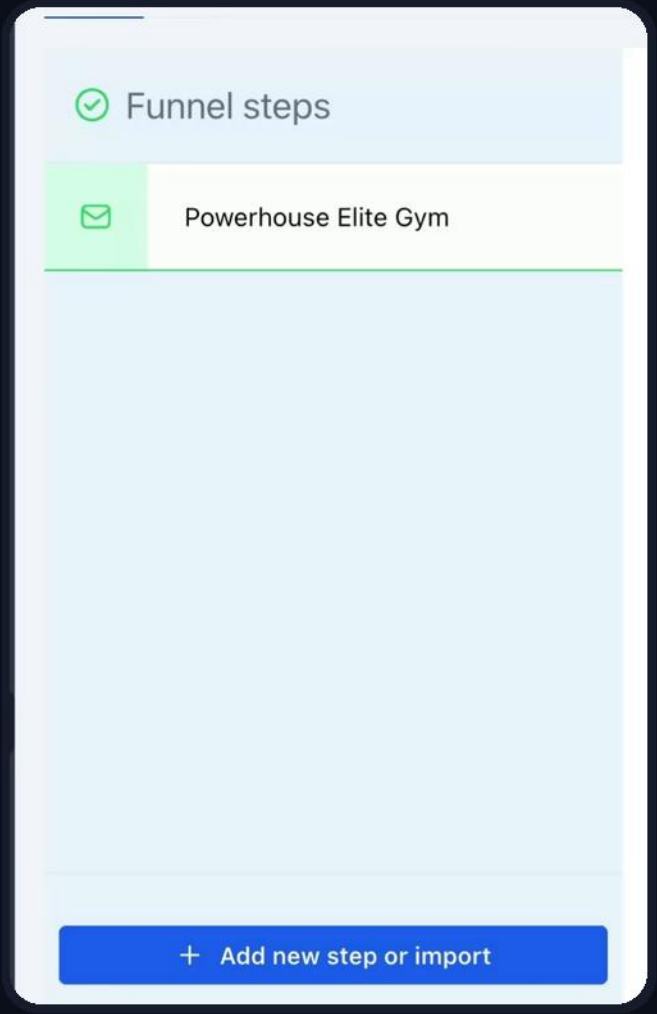

A new HighLevel feature, who pays for it, and the 3-click setup.

BEFORE

One funnel. One page.

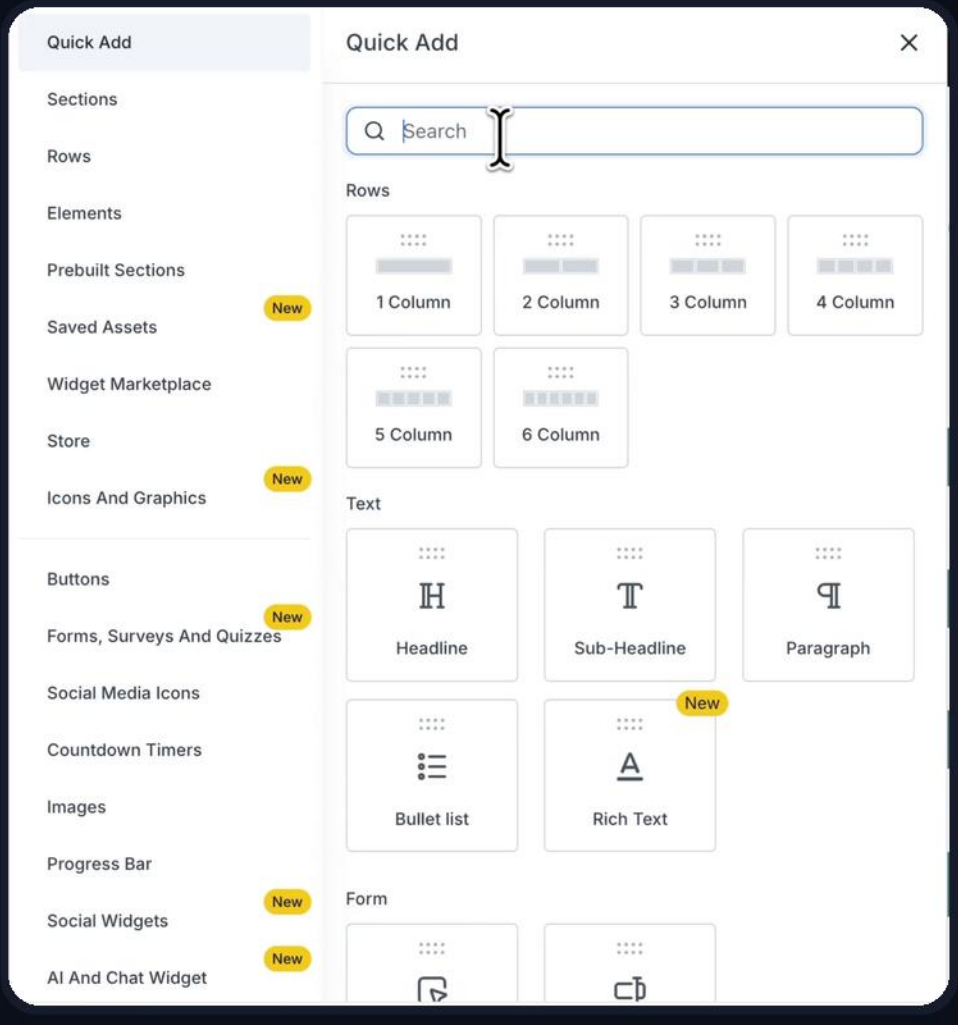

A normal HighLevel funnel. No way to take money for products.

STEP 1

Add any store element

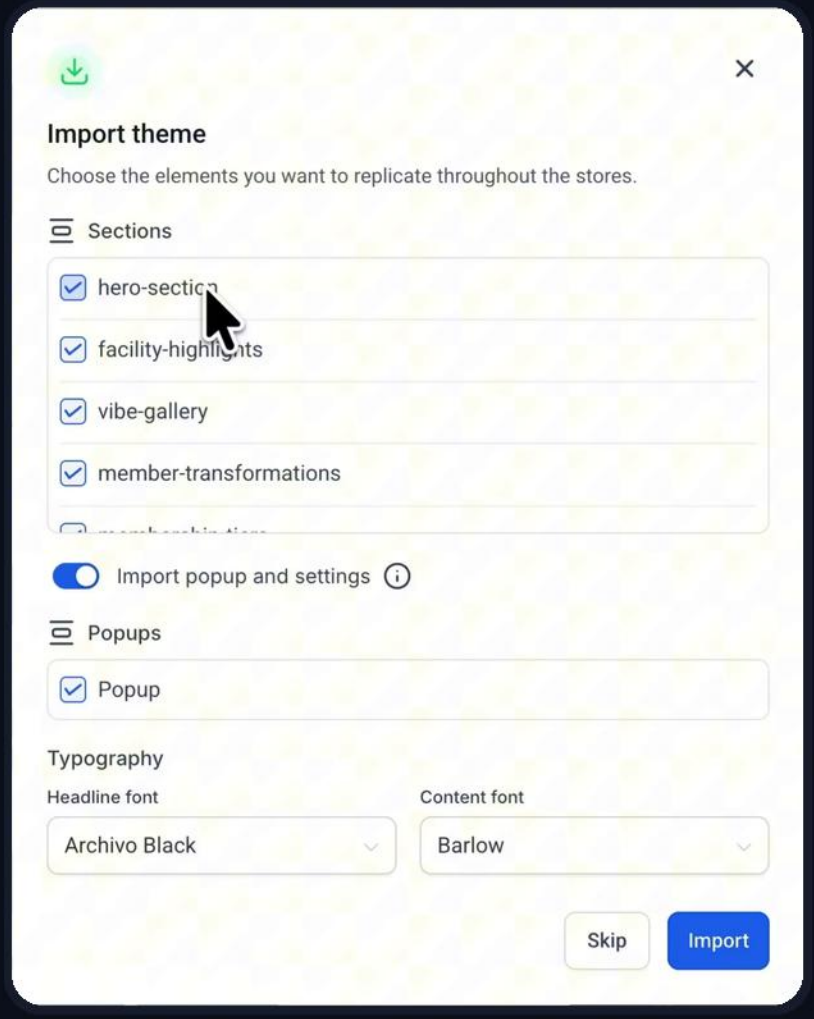

In the builder: Quick Add → Store → drop in a cart icon.

STEP 2

Pick what carries over

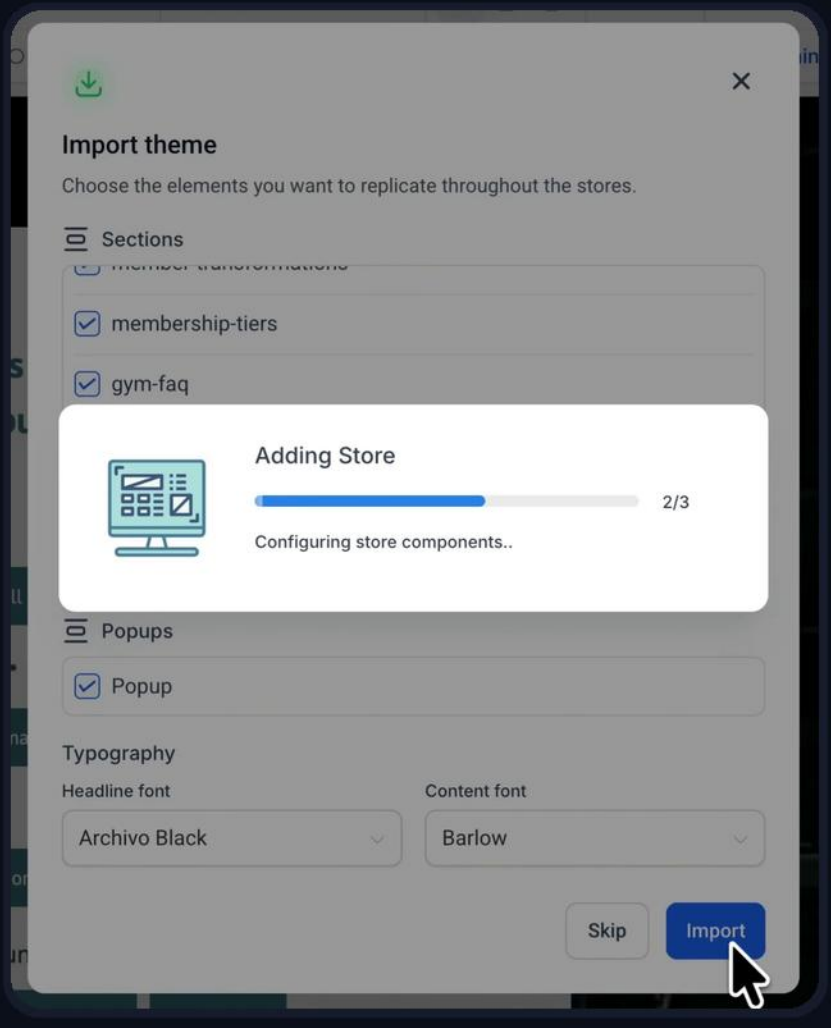

HighLevel asks which sections, popups and fonts to reuse on every store page.

STEP 3

Click Import.

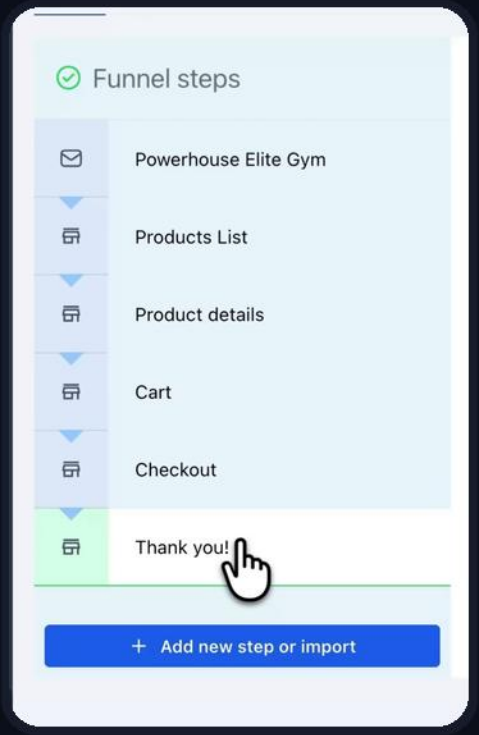

Therefore the funnel builds the store pages for you, in the same design.

AFTER

1 page → 6 pages

- Product list
- Product details
- Cart
- Checkout
- Thank you

WHO PAYS

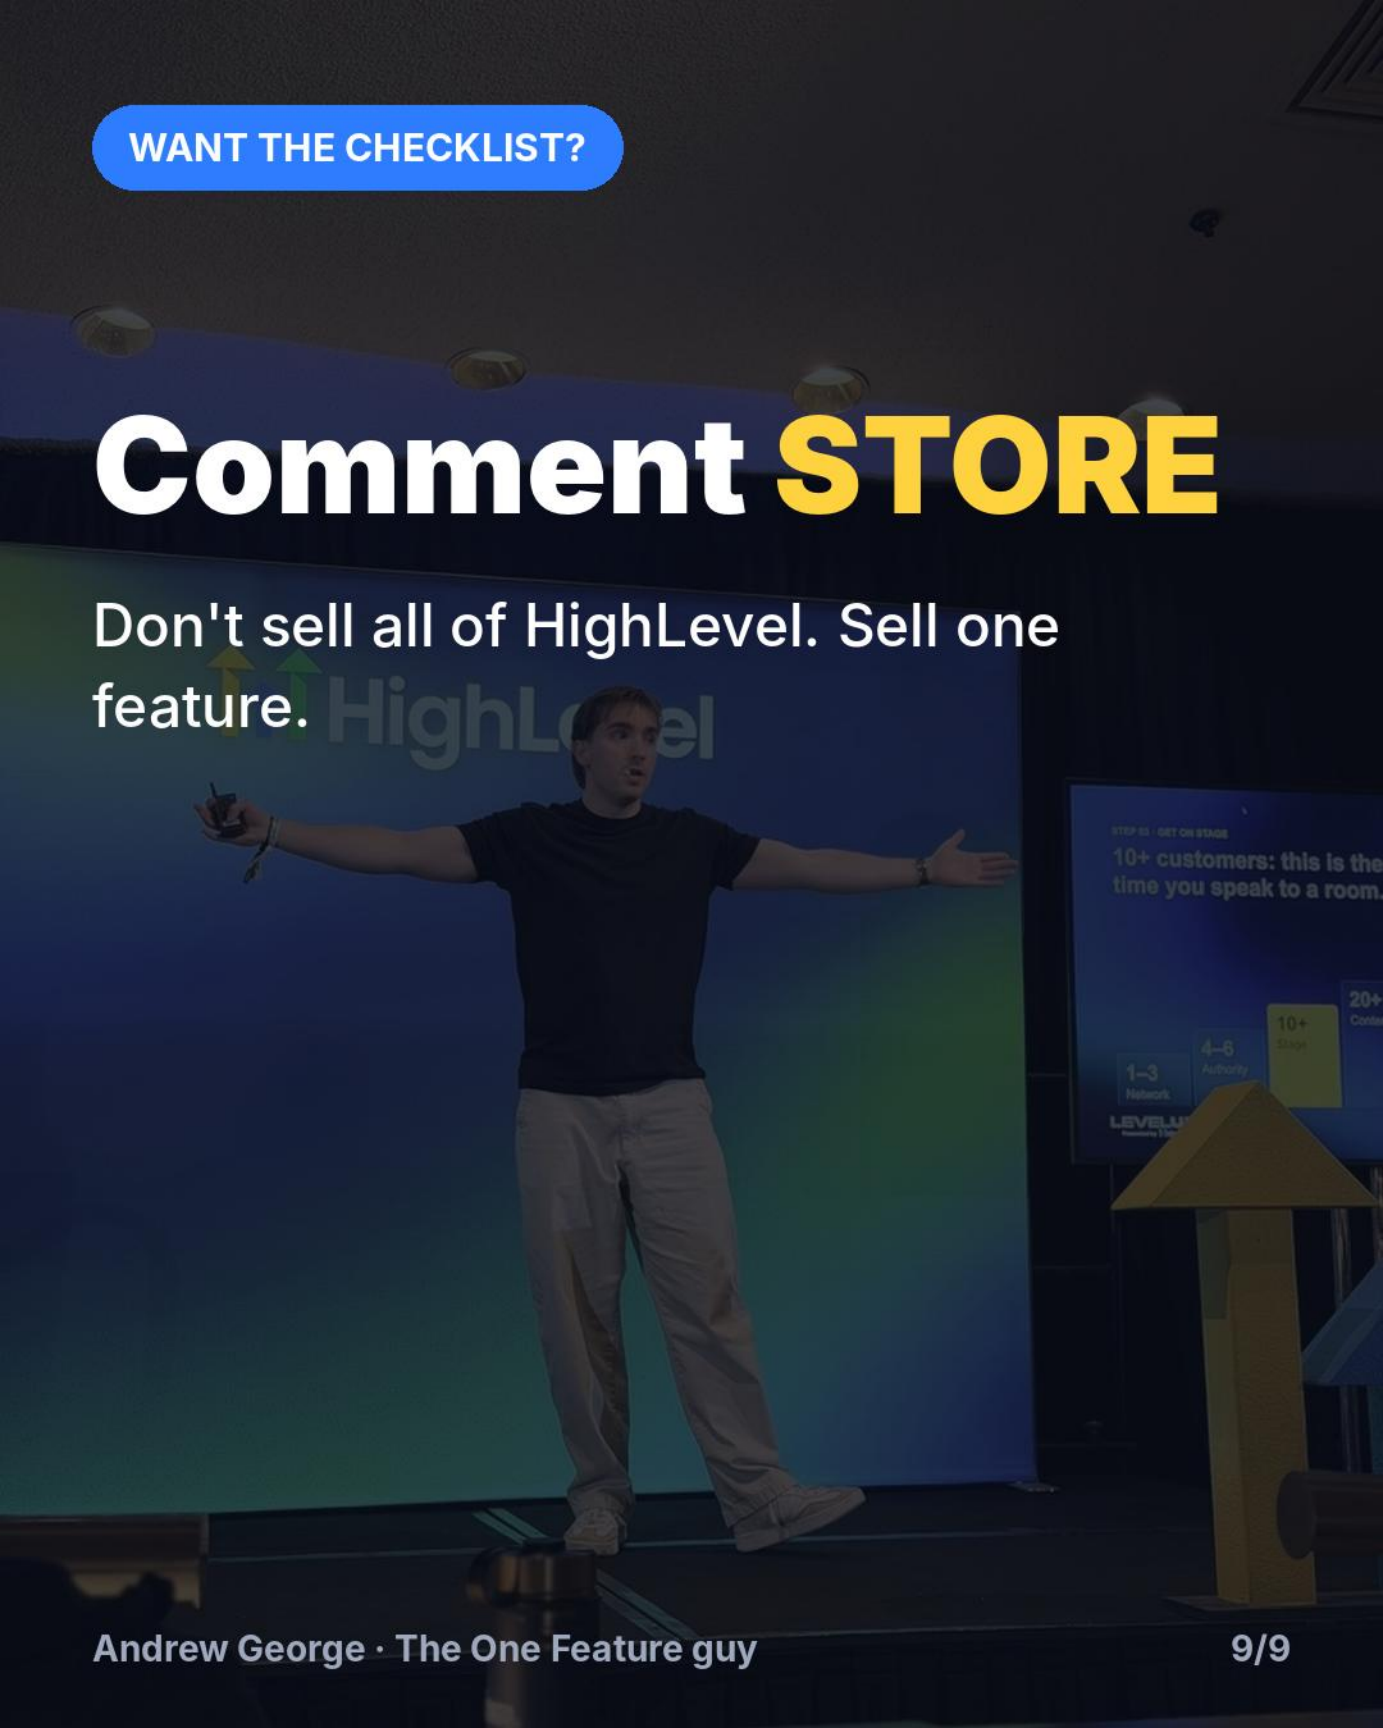

They have a funnel. But no way to sell.

- Gyms: passes + merch
- Coaches: templates, mini-courses
- Local shops: gift cards
- Cafés: merch + catering deposits
- Nonprofits: donations + tickets

THE OFFER

“I’ll turn your funnel into a store this week.”

- Setup: store live, products loaded, checkout tested
- Monthly: new products, promos, abandoned-cart follow-ups
